*Teaching is only the art of
awakening the natural
curiosity of young minds for
the purpose of satisfying it
afterwards.*
— Anatole France

*Education must provide the
opportunities for self-
fulfillment; it can at best
provide a rich and challenging
environment for the individual
to explore, in his own way.*
— Noam Chomsky

*Let us think of education as the
means of developing our
greatest abilities, because in
each of us there is a private
hope and dream which,
fulfilled, can be translated into
benefit for everyone and
greater strength for our nation.*
— President John F. Kennedy
